

SENATOR FOWLER: Senator Simon's motion. I promised Senator Simon that I would take that and speak for it if he wasn't here when it came up. I don't know if I have to.... Senator Newell also made him the same promise. So he's put a motion up, I guess, to delay it. Okay.

SENATOR SAVAGE: Do you wish to place that motion to bracket?

SENATOR FOWLER: Senator Newell has it up there.

CLERK: Mr. President, Senator Newell moves to bracket LB 210 until February 21, 1978.

SENATOR SAVAGE: Chair recognizes Senator Newell.

SENATOR NEWELL: This would not be bracketed until Monday, it would be bracketed until Tuesday. There are a lot of other things that are bracketed till Monday. I thought that Tuesday would be a better day to try to deal with this bill. I think it's an important bill that deserves a lot more people paying attention to it. It's one that is quite controversial. I would hope that this body would consider bracketing until that time when more members of the body can give it their full attention. There are a lot of amendments pending to this bill. I have not offered any as of yet. Depending upon what the other amendments do and fate, I will be offering amendments to this also. I think to deal with it fairly, and that all members of the body, as well as Senator Warner, have a chance to deal with this bill correctly, I think the bracketing motion would be necessary and certainly in order. Thank you.

SENATOR SAVAGE: Is there further discussion? Senator Warner.

SENATOR WARNER: May I inquire of the Chair or Senator Newell, have you checked to see what the affect of your bracketing motion, in fact, will be? Sometimes other things on the agenda automatically get placed ahead of bills that have been bracketed. The affect of your motion could be to delay it for several weeks rather than.... I know that is not your intent, but it could have the affect of delaying it for several weeks rather than until the 21st, just because of the way the system works.

SENATOR SAVAGE: Will you respond, Senator Newell?

SENATOR NEWELL: That traditionally has not been the case. However, if Senator Warner would like to suggest some other sort of technique which would further guarantee him, or make him feel better about the procedure, I would be willing to accept that.

SENATOR WARNER: How about the first order of General File on February 21st?

SENATOR NEWELL: I would accept that. Would the Clerk make appropriate changes? That is what we'd like to do now at this point. That would be favorable with Senator Warner. I hope the members of the body would be cooperative in this endeavor also.

SENATOR SAVAGE: I'm not in a position to speak for the Speaker of the Legislature as to what he will do with this.
